## Data Analytics & Process Optimization Professional

✉ iamdidula159@gmail.com | 📞 075-4554753 | 🌐 [didula21.github.io](https://didula21.github.io) | [LinkedIn](#) | [GitHub](#)

### PROFILE SUMMARY

Analytical and detail-oriented Data Analyst with experience in data analysis, data visualization, and process Optimization. Skilled in leveraging tools such as Power BI, Power Apps, Excel, Python, and SQL to enhance operational efficiency and data driven decision making. Passionate about applying data driven insights to improve system operations and business processes.

**Portfolio:** [Didula Thilakarathna](#)

### EDUCATION

**BSc in Statistics and Computer Science | University Of Kelaniya (2022 – 2025)**

Grade : Second Class Upper Division (GPA : 3.43)

**G.C.E. Advanced Level | Pinnawala Central College | 2020**

Physical Science Stream | Combined Mathematics - B, Chemistry - B, Physics - C

### WORK EXPERIENCE

**Data Analytics Intern – Divisional Lean Enterprise, MAS Intimates | May 2025 – Present**

Designed and implemented digital platforms, including Power BI dashboards and Power Apps, to streamline operations and improve traceability across business processes. Conducted data analysis and automation using Python, SQL, Power BI, and Excel. Applied Lean Manufacturing principles to optimize workflows, enhance efficiency, and lead cross-functional projects.

### TECHNICAL SKILLS

- Programming & Analysis: **Python, R, SQL, Excel**
- Libraries & Frameworks: **NumPy, Pandas, Scikit-learn, Matplotlib, Seaborn**
- Data Visualization & BI Tools: **Power BI**
- Web Development: **HTML, CSS, JavaScript, React**
- Databases: **MySQL, MongoDB**
- Version Control: **Git, GitHub**

### PROJECT EXPERIENCE

**Garment Sample Tracking & Performance Analytics System | MAS Intimates**

Built a QR-based tracking platform to monitor garment prototype flow and identify production delays. Integrated Power Apps, Power BI, and Python for real-time tracking, delay analytics, and process optimization.

Tech Stack: Python, Power BI, Power Apps, Power Automate, SharePoint, Excel

**Machine Management & Downtime Prediction System | MAS Intimates**

Developed a data-driven model to monitor and predict machine downtime using Python, SQL, and Power BI. Automated data collection and visualization to enable proactive maintenance scheduling and improve equipment efficiency.

Tech Stack: Python, SQL, Power BI, Power Apps, Power Automate, SharePoint

### Breast Cancer Prediction Using Machine Learning

Developed a machine learning model to classify breast tumors as benign or malignant based on diagnostic data. Applied feature engineering and supervised learning algorithms to improve model accuracy and interpret key predictors.

Tech Stack: Python, Scikit-learn, Pandas, NumPy, Jupyter Notebook

Source Code: GitHub – [Breast Cancer Prediction](#)

### Statistical Analysis of Sri Lanka Men’s Cricket Team Performance | Group Project

Conducted a comprehensive statistical analysis to identify key factors influencing the performance of the Sri Lanka Men’s Cricket Team. Utilized advanced statistical methods to highlight trends, KPIs, and improvement opportunities.

Tech Stack: R, Python, Excel, Power BI

Link: [Cricket Research](#)

### ICC T20 Cricket World Cup 2022 Analysis Dashboard

Designed an interactive Power BI dashboard to analyze player performance, team trends, and match outcomes using ESPNcricinfo data. Automated data extraction via Python web scraping for real-time analytics.

Tech Stack: Python, Pandas, Web Scraping, Power BI

Link: [Cricket Data Analysis](#)

## VOLUNTEER EXPERIENCE

### AIESEC Colombo North (2023 - 2024)

Actively contributed in multiple roles including Product Strategy Team Leader, EEs and Campaigns Team Leader, and Graphic Designer. Led project teams, developed strategies, managed campaigns, and created visual content to support organizational initiatives.

### Kelani Steam – Science Faculty Media Unit, University of Kelaniya

Exco Member – Assistant Head of Designing. Designed creative content for events, campaigns, and media communications.

### Statistics and Computer Science Students’ Association, University of Kelaniya

Engaged in organizing academic and extracurricular events, promoting student involvement, and contributing to association initiatives.

## LICENSES AND CERTIFICATIONS

- Certificate in Software Engineering | Institute of Software Engineering - IJSE | 2024 March - 2024 October
- Machine Learning Using Python - Simplilearn
- Python Libraries for Data Science - Simplilearn
- Power BI for Beginners - Simplilearn
